

# The Cooper Union School of Engineering In Opposition to the Proposed Changes to the Code of Conduct as Drafted by the Board of Trustees:

We, members of the School of Engineering, are signing in opposition to the draft for the proposed Student Code of Conduct, written by the Board of Trustees of the Cooper Union, as it was presented to the Administrative Chairs of the Student Councils on Tuesday, November 19<sup>th</sup>, 2013.

Peter Cooper stated in a letter to the trustees from April 29<sup>th</sup>, 1859, "Desiring, as I do, that the students of this institution may become pre-eminent examples in the practice of all the virtues, I have determined to give them an opportunity to distinguish themselves for their good judgment by annually recommending to the Trustees for adoption, such rules and regulations as they, on mature reflection, shall believe to be necessary and proper, to preserve good morals and good order throughout their connection with this institution."

With his words in mind, we feel that ~~the~~ only those amendments to the Code of Conduct which are initiated and voted on by the students are legitimate. We refuse to accept the changes as they are proposed and, with them, the intent of the Board of Trustees to circumvent the authority of the student body to impose and enforce their own standards for student conduct. This act is seen as repressive, coercive, and undermining the agency of the students as a governing body.

Until the students are in control of the Code of Conduct once again, and may initiate, draft, and vote on amendments as they see fit, changes to the current Code of Conduct are considered illegitimate.
