Menschel
Fellowship**

Creative Inquiry

The Benjamin Menschel Fellowship Program to Support Creative Inquiry

was endowed by a grant given to The Cooper Union by the Horace W. Goldsmith Foundation in 1994 to support work in the fields of art, architecture, design and engineering. This generous grant was intended to provide funding to exceptional students who propose scholarly, independent projects that will in some way provide a culmination to their educational endeavors at The Cooper Union. It is the hope of the Goldsmith Foundation that the students designated as Benjamin Menschel Fellows will be encouraged by their awards to complete bodies of artwork, develop scientific protocols, or otherwise further their intellectual investigations in a manner that will provide inspiration and illumination to the community as a whole.

THECOOPERUNION

The Benjamin Menschel Fellowships will be awarded in the spring of 2020 for use during the summer of 2020 and the fall 2020 semester. The fellowships will be made on the basis of merit to students who have attended The Cooper Union for at least one year and who will be enrolled for the 2020–2021 academic year.

Fellowships are intended to cover eligible expenses for travel and materials used to complete the proposed project, up to a maximum of \$4,500 per project. Students who are awarded Fellowships must agree to exhibit or present their work publicly during the following academic year. Winners are expected to reserve up to 25% of their fellowship for the exhibition expenses.

The intent of the award is to support independent projects that are not subject to evaluation for grades in courses.

Joint submissions and interdisciplinary submissions from students in more than one school are encouraged.

CONDITIONS OF **ELIGIBILITY**

To be considered for a Benjamin Menschel Fellowship, a student must:

1. Be a full-time matriculating student at The Cooper Union with a minimum of two semesters remaining before graduation, excluding the present one;
2. Be in good academic standing; and
3. Provide a letter of support from a faculty member willing to evaluate the project proposed by the student and to attest to the student's ability to complete the project.
