Technische Universität Dresden

Research Experience Program

TUD | Dresden University of Technology is one of Germany's 11 Universities of Excellence: strong in research, offering first-rate programs in the STEM fields as well as the humanities with close ties to culture, industry and society. As a member of DRESDEN-concept, TUD benefits from a unique research alliance with higher education institutions, museums, libraries, and research institutes.

The Research Experience Program offers senior undergraduate and graduate students the opportunity to gain cutting-edge research experience in a wide range of scientific fields. Students will actively participate in research projects at TUD or at a DRESDEN-concept partner institution and benefit from individual supervision. The stay is accompanied by cultural and educational activities.

Program

- Level of studies: Senior undergraduate and graduate students
- Scientific fields: Engineering, Science, Humanities, Social Sciences
- Working language: English
- Time and duration: 4 to 12 weeks between (preferably) May and August 2026, exact dates can be arranged individually
- Tuition: TUD does not charge tuition but a semester fee of about 300 € (including public transportation) is mandatory for enrollment

Application

Please apply directly with your local exchange coordinator with the following documents:

- Nomination letter by your local exchange coordinator
- Letter of motivation naming the chair or institute where the applicant wishes to carry out his/her research (Please find a list of chairs and institutes here)
- Transcript of records
- Curriculum Vitae
