Alex Mustonen AR’05

Alex Mustonen will present Snarkitecture, a New York-based collaborative practice established to investigate the boundaries between art and architecture. The name is drawn from Lewis Carroll’s *The Hunting of The Snark*, a poem describing the “impossible voyage of an improbable crew to find an inconceivable creature.” In its search for the unknown, Snarkitecture creates architectural-scale projects, installations, and objects.

Snarkitecture’s work focuses on the reinterpretation of everyday materials, structures and programs to new and imaginative effect. With a conceptual approach centered on the importance of experience, the studio creates unexpected and memorable moments that invite people to explore and engage with their surroundings. By transforming the familiar into the extraordinary, Snarkitecture makes architecture perform the unexpected.
